Home Visiting Makes a Difference

A story about Fight Crime: Invest in Kids

The more than 250 law enforcement leaders and crime survivors of Fight Crime: Invest in Kids NY and over 5500 members nationally, know that the most powerful weapons we have against crime, violence and abuse are the proven programs that help kids get a good start in life. High-quality home visiting for families with infants and young children can deliver strong crime-fighting results, in part by cutting abuse and neglect, so it is essential that New York continue to support and expand home visiting funding.

Every year in New York State, there are enough abused and neglected children to fill Madison Square Garden almost four times. Almost four times.

I have seen the consequences of child abuse and know that the consequences last for generations. As President of the NYS Sheriffs Association, I can tell you that sheriffs across the state have a father in one part of the prison, and his son in another part. We know a lot about how to break this cycle for many families and alter the outcomes for their children. It is an urgent matter of public safety that we do so now.
