

Moving on Maternal Depression Project:

Continuum of Care Model

The Webinar will begin shortly.

Moving on Maternal Depression Project: Continuum of Care

November 22, 2019

**Office of
Mental Health**

CLASP

Policy solutions that work for low-income people

Moving on Maternal Depression

2

- Advance policies that improve prevention, screening, and treatment.
- Emphasis on racial equity & culturally relevant services/practices in policy and systems change.
- Technical assistance- NY, NJ, PA
- Learning Community-DC, LA, MA, MI, OR, RI, VA

Goals of NY Project

3

- Develop key metrics/data.
- Understand scope & location of screening and treatment services.
 - ✓ Develop a workforce plan of action for addressing maternal depression.
- Integrate policy across State Agencies & communities.
- Meaningfully engage women with lived-experience.
- Integrate racial equity across each goal.

From Identification to Treatment

4

- Education on MMH should be universal.
- Ideally, women should be informed of MMH disorders and assessed for risk prior to pregnancy.
- Screening and support should be provided: pre-conception, prenatal, postpartum and inter-conception.

Process for Discussion

5

- Walk through each sheet with a quick overview and our thinking.
- Questions to get quick input using the chat box.
- All materials and a form for additional feedback will be on the SCAA website.

Next Steps

6

- Materials on SCAA website under:

www.scaany.org:

Issues > Health > maternal mental health

- Recording, slides, spreadsheet, survey for input.
- Another webinar in spring for additional input.
